OBJECTIVE

Aspiring to join a progressive IT organization as a Quality Assurance Engineer to contribute my expertise in software testing methodologies and drive product quality.

PERSONAL STATEMENT

As a dedicated Computer Engineer, I'm passionate about ensuring the highest quality in software products. My diverse technical background, coupled with my strong analytical and problem-solving skills, makes me well-suited for a QA role. I'm eager to leverage my ability to identify and address defects to contribute to the success of your team.

WORK HISTORY

REVLV Solutions Inc. Makati, Philippines November 2023 - Present	Network Engineer - Designed, implemented, and maintained network infrastructure. - Monitored NOC to resolve network issues proactively. - Troubleshoot and resolve network problems. - Configured and managed network devices. - Implemented security measures. - Provided technical support to end-users.
IT-Americano Inc. Makati, Philippines October 2022 - February2023	UI/UX Designer - Created wireframes and mockups to visualize user interfaces. - Conducted user research and usability testing to gather feedback. - Designed intuitive and visually appealing user interfaces. - Developed interactive prototypes for client testing. - Collaborated with developers to ensure accurate implementation of designs.
